Bellevue College ***2022-Present***

Associate Transfer Degree
CS 210, CS 211, CS 213
In-Major GPA: **4.0**

Eastlake High School ***2016-2020***

AP Computer Science A
AP Computer Science P

WSPTA Game Development Competition 2018 & 2019

Created games with a group of friends in high school, both programmed in java to compete against other groups of students in throughout the district. Ended up winning both competitions with the Best Code commendation

Project

Generray

Quickly and easily generate wide variety of arrays for testing functions in java and various other languages. I made this to shorten the amount of time it took to create arrays to use for test cases.

Cast

Instantly take natural language inputs of data, then do various different processes and conversions based on the input from the user.
